HITECH DATA GROUP LIMITED offers comprehensive data recovery services for various storage media, including

- ☒ **Hard Drive Data Recovery:** Recovery from crashed or corrupted hard drives.
- ☒ **SSD Data Recovery:** Specialized recovery services for solid-state drives.
- ☒ **RAID Server Data Recovery:** Expertise in recovering data from complex RAID configurations. ie NAS Disks
- ☒ **Flash Memory Data Recovery:** Recovery from USB drives, SD cards, and other flash memory devices.
- ☒ **Mobile Phone Data Recovery:** Retrieval of lost data from mobile devices, including photos and contacts.
- ☒ **Ransomware Removal & Data Recovery:** We specialize in mitigating, removal and recovery of data affected by ransomware.

DIGITAL FORENSICS SERVICES

HITECH DATA GROUP LIMITED provides expert digital forensics services to corporate, government, and private clients in Kenya. Our team of professionals specializes in;

- ☒ **Computer Forensics:** Examining files, deleted items, logs, and system data to reconstruct events or identify unauthorized access.
- ☒ **Mobile Phone Forensics:** Recovering messages, call logs, photos & app data to gather evidence relevant to investigations.
- ☒ **CCTV Video Forensics:** we analyze video footage from surveillance cameras to gather evidence for criminal investigations.
- ☒ **Social Media Forensics:** We examine data from social media platforms to uncover evidence related to criminal activities, cyber bullying, defamation etc
- ☒ **Email Forensics:** We offer retrieval and analysis of email communications to uncover evidence of fraud, harassment, or other criminal activities.

CYBER SECURITY SERVICES

HITECH DATA GROUP LIMITED offers a range of cyber security services to protect businesses from digital threats and ensure business continuity. Their services include;

- ☒ **Vulnerability and Penetration Testing:** This service involves systematically assessing an organization's IT infrastructure to identify security weaknesses.
- ☒ **Security Audits:** Security audits are comprehensive evaluations of an organization's security policies, procedures, and controls.
- ☒ **Security Monitoring:** We offer continuous security monitoring services to detect and respond to potential threats in real-time.
- ☒ **Incident Response:** In the event of a security breach or cyber incident, We provide incident response services to help organizations manage and recover from the situation. ie Ransomware Attack.

DATA SHREDDING & SANITIZATION SERVICES

HITECH DATA GROUP LIMITED'S data shredding & sanitization services ensure the secure and responsible disposal of confidential data.

Data Shredding & Sanitization:

We employ advanced techniques to ensure that sensitive data is permanently destroyed. This can be accomplished through:

- **Software Solutions:** Utilizing specialized data shredding software that overwrites existing data with random patterns, making it impossible to recover.
- **Hardware Solutions:** Physically destroying storage devices, such as hard drives and SSDs, ensuring that data cannot be accessed or reconstructed.
- **Certificate of Destruction:** Providing documentation that confirms data has been securely erased, which is essential for compliance with data protection laws.

This helps mitigate the risk of data breaches and ensures compliance with legal requirements regarding data disposal & protect against identity theft and unauthorized access to sensitive information.
